Calloway Corporation Implements CookenPro

Calloway Corporation, http://www.callowayaruba.com/html/content_main.htm, the official caterer for American Airlines, American Eagle, Continental Airlines, Delta Airlines, KLM Royal Dutch Airlines, Miami Air, United Airlines, US Airways and several Charter flights in Aruba, has implemented Barrington Software's CookenPro.

"CookenPro gives Calloway the ability to accurately maintain inventory and track our costs," says Jan Willem van den Ham of Calloway. Catering is Calloway Corporation's core business, operating 24 hours a day, 365 days a year and serving an average of 3000 meals a day.

What's New In CookenPro?

The new 3.19 release of CookenPro filters costing, inventory extension, and inventory history reports by a range of dates. The reports can be printed or emailed with a click. All inventory costing, extension, and history spreadsheets can now be sent to Microsoft Excel. Go to www.cooken.com/UpdateCommercial.htm to read about all the new features.

Did You Know?

With CookenPro's 'Sysco Purchase Order Export' users can export a CookenPro Purchase order in a format that can be imported into the eSysco ordering system.
