Interstate Cash Register Implements First Stores, Automated E-mail TEC 3700 Reports to Owners, Managers

Consider POS Store & Forward if you have a need for your POS reporting, including sales, to be at your fingertips. POS Store and Forward can make register reporting available:

- From 1 store up to a 100
- Wherever you are
- Without expensive infrastructure

We can provide support and training for dealers and/or customers to help get this product up and running. **Patrick Walker, Interstate Cash Register, says: “Barrington’s support has been outstanding.”** Reports can be emailed automatically to up to 400 addresses. Reports can be in Text, Rich Text, or Excel Formats.

Below are features you can get with POS Store & Forward:

- Provide graphical reporting of item quantities sold at different price levels over selected time periods, by store, by region, by month, week, quarter, year, and day of week.
- Send information by Email or FTP
- Send Sales Detail to your accountant or to home office without operator intervention.

See our website at <http://www.cooker.com/POSStoreAndForward.htm> or contact us at info@barringtonsoftware.com or (888) 394-0047 for more information about POS Store And Forward.

TEC FS-3700:

Contact Interstate Cash Register for TEC FS-3700 information.
