## ***Taco Mayo Is Very Pleased With POS Store & Forward***

Taco Mayo, (pronounce My-oh), with more than 25 years in the fast-food/franchise business and over 90 stores, has selected POS Store & Forward to make reporting available at the PC from the Toshiba TEC FS-3700 terminal network provided by Cash Register Systems, Inc. of Okalahoma City.

Next Taco Mayo plans to forward sales and other detail from the units to a central location, using POS Store & Forward. The units will be maintained in a single database.

Since 1987, Cash Register Systems, Inc. has been providing customers cost effective and reliable point of sales systems along with unsurpassed support and service. **Mike McCann, Cash Register Systems of Oklahoma City, says:** ***“Barrington’s software has been easy to set-up and trouble free.”***

Contact Cash Register Systems, Inc. for information on point-of-sale systems.
